FLORES

Flores is strikingly beautiful and diverse, and one of Indonesia's Eastern islands. White sandy beaches stretch beyond hilly landscapes and beautifully stepped rice field vistas. The island is known for distinct rugged rock formations, shaped by volcanic activity over millions of years, and with fourteen volcanoes still active, Flores is in the midst of the so-called geological Ring of Fire.
There is an amazing cultural diversity partly explained by Flores geographical attributes and partly due to outside influences. It has a wealth of cultures, languages and history, first colonised by Portugal and later by the Dutch. What better island then to lend its name to our eclectic collection of bowls. Featuring waves, ridges and scalloped edges in pale sand, earthy brown and charcoal wood, antique ceramic and cool, grey cement finishes, the shallow bowls look great stacked and grouped together, and also shine as statement centrepieces.
